## (54) FOOD PRODUCT CONTAINING TEA LEAVES

## (57)Abstract:

PURPOSE: To obtain a food product which can stabilize the quality of tea leaves, moderate the bitterness, thus is improved in its palatability and absorption into living bodies and enable the ingestion of effective nutrients.

CONSTITUTION: This food product contains unfermented tea leaves and at least one element in the fourth period in the periodic table. These elements may be used in the form included in a naturally occurring substance. These elements are preferably selected from potassium, calcium and iron.

## LEGAL STATUS

[Date of request for examination] 22.02.2001

[Date of sending the examiner's decision of rejection] 16.02.2004

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
